

Brain Wash GAME SHOW

Everyone dreams of winning on a real game show. Brain Wash Game Show brings the absolute best game show experience to your resort and for your guests to live their dream.

The Show

Four contestants at a time compete as individuals or in teams of 2 to answer as many of the general trivia, and POP culture questions as they can, until a winning score is achieved. Questions presented are not too difficult and result in many of the contestants racing to be the first one to buzz in. This leads to a lot of comedic moments and none are missed by host, Eric Dasher. All of the questions are projected up onto large screens so everyone, including the audience, can see them and play along. Once a winner has been announced, prizes are awarded, new contestants are selected and another round begins. Each round runs approximately 5-7 minutes but can be lengthened or shortened depending on the need. The number of rounds is determined by the time allotted for the show.

The Set

Brain Wash Game Show transforms your stage or performance area into the set of a TV style game show. Small or large, the design of the set allows us to set up just about anywhere. No other show delivers a better game show experience than Brain Wash. The show includes real game consoles equipped with flashing lights, digital scoring, sound effects, lock-out buzzers, and microphones. Backdrops, sound system (if house is not available), specialty lighting (latest intelligent lighting), projectors, and your host, Eric Dasher, also come with the show. Because all of the questions are projected on the screen, we are able to create an unlimited variety of visual questions and include them in the game.
